SUBJECT: ACO Issued Modifications Published on the Web

I would like to take this opportunity to thank you and your staff for your support on publishing ACO issued contract modifications on the Internet World Wide Web.

In response to Management Reform Memorandum (MRM) #2, Paperless Contracting, DCMC committed to publish 90 percent of its ACO issued modifications on the Web by May 31, 1998. When we started in January, only two percent of the ACO issued modifications were being published on the Web. By May 31, 1998, over 94 percent of our modifications were being accomplished using the ACO Mod Module and being sent to the Web. This is a very significant accomplishment that supports MRM #2.

We still have work to do to ensure that our ACO modifications appear on the Web in a more timely manner and we will continue to work that issue. I am extremely proud of the efforts of you and your staff in making this commitment a success. I sincerely appreciate the hard work and "can do" attitudes that were required for this. Please congratulate and thank your staff for their tremendous effort on this and ask them to keep up the good work, continue to strive for improvement and continue to submit and monitor data on this as they have been doing. I have promised Dr. John J. Hamre, the Deputy Secretary of Defense, another update in early July 1998.

Again, thanks for a job well done. This accomplishment reflects favorably on the Defense Contract Management Command.

TIMOTHY P. MALISHENKO
Major General, USAF
Commander
